

November 19, 2015

Dear Evan,

Much thanks to the Somerset SEQPL team for completing an outstanding tool decommissioning project at the Telefunken semiconductor fabrication facility in Heilbronn Germany

The breath of scope was complex and schedules were aggressive, yet through the team's diligence, mastery of the tasks, proactive communication, and superb collaboration, they removed 220 tools and left a clean well decommission fab space...all in under 13 weeks!

It was a pleasure to work with this team. Without a doubt they will be my go to partner on the next decommission project.

My sincere thanks to Craig and his staff for making this happen.

With Best Regards,

A handwritten signature in blue ink, appearing to read "John Pfeifer", is written over a light blue circular watermark.
